PALEMPALLE VEERA JASWITH REDDY

+91 9390772199 | jaswithreddypv@gmail.com | Chennai, India | LinkedIn | GitHub | LeetCode

Summary

Computer Science undergraduate with a strong foundation in Python, SQL, Data Structures and Algorithms, and backend development. Completed a technical internship in product development and built projects involving Flask, databases, NLP, and computer vision. Interested in software engineering, scalable systems, and developing real-world applications.

Education

SRM Institute of Science & Technology, Kattankulathur 2023 – 2027
B.Tech in Computer Science and Engineering; CGPA: 9.37/10 Chennai, Tamil Nadu

Indian Institute of Technology Madras May 2023 – Present
B.S. in Programming and Data Science Chennai, Tamil Nadu

Narayana Junior College 2023
Class XII, MPC; Percentage: 93.20% Kadapa, Andhra Pradesh

Nagarjuna Model School 2021
Class X; Percentage: 95.33% Kadapa, Andhra Pradesh

Experience

Skill First Labs Oct 2025 – Nov 2025
Technical Intern – Product Development Chennai, Tamil Nadu

- Validated technical skill requirements across 20+ roles by analyzing LinkedIn and public sources and comparing findings with existing company data using Excel.
- Cross-checked 15+ employee profiles and job requirements to identify discrepancies and document validated skill information for data refinement.

Projects

Hospital Management System — Python, Flask, SQLite, SQLAlchemy
Developed a Flask-based hospital management system, reducing patient registration time by ∼40% through digital patient and appointment management. Automated patient record and appointment retrieval, reducing manual record-search time by ∼60%.

Twitter Sentiment Analysis — Python, NLP
Developed a sentiment analysis system to classify tweets as positive, negative, or neutral with ∼90% classification accuracy. Automated sentiment classification across large tweet datasets, reducing manual sentiment-labeling effort.

Automatic Number Plate Recognition (ANPR) — Python, OpenCV, OCR
Developed an ANPR system to detect and extract vehicle registration numbers from images, achieving 90%+ detection accuracy and reducing manual vehicle identification effort.

CampusConnect – Student Marketplace — Python, Django, SQLite
Developed a student marketplace supporting 50+ product listings for academic materials, electronics, clothing, and campus essentials. Implemented authentication, product listings, category filtering, search, and responsive dashboards.

Skills

Programming Languages: Python, C
Technical Skills: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems, Operating Systems Fundamentals, Computer Networks, SQL, SQLite
Languages and Frameworks: HTML, CSS, Flask, Bootstrap
Tools and Technologies: GitHub, Visual Studio Code, Google Colab, Power BI
Areas of Interest: Software Development, Backend Development, AI, Machine Learning

Certifications

Advanced Certificate in Programming and Application Development – IIT Madras
SAP Certified – Implementation Consultant – E2E Business Processes for SAP Business Suite (Global)
SAP Certified – SAP Generative AI Developer (Global)
Foundational Level in Programming and Data Science – IIT Madras
Python Online Certification – Data Flair
